Aerospace Program Manager R&T Projects (m, w, d)

Place of work	Contract Type	Job Number	100003029
Oberpfaffenhofen, DE	Permanent, AÜG	Work start:	asap

Your tasks at an independent European supplier and manufacturer for the aerospace industry

We are seeking a dynamic person who is proactive, flexible, and responsive with a passion for leading successful projects.

Your Day-To-Day:

- Accountability for all R&T project assigned to you and control accounts
- Responsible for the cost, schedule and technical performance of R&T project assigned to you to ensure successful program execution
- Develop and monitor program baselines and performance, risk, opportunities, cost & schedule
- Define, secure, organize and budgets and schedule essential for the successful completion of all R&T projects assigned
- Develop good internal/external communication systems
- Ensure that R&T Project requirements, purposes, objectives, and expectations are communicated and flowed-down to the internal team and subcontractors
- Resolve conflicts, demands and priorities on assigned projects as needed
- Work unplanned program issues to a best solution, including development of plans-forward, escalation and adapt budget and schedule
- Effectively communicate program status to R&T PMO leadership and Chief Engineer
- Establish and maintain effective working relationships with engineering, operations, contracts, subcontracts, finance, security, staffing, and procurement
- For supplier project management, responsibilities will focus on managing the cost, schedule and technical performance of key vendors

Your Profile

- B.S /B.A. in Engineering, Science or Mathematics or equivalent
- 5-10 years of relevant aerospace industry experience
- Experience managing innovative solutions to technical problems
- Experience working and managing multiple stakeholders relationships with Engineering, Operations, Integrated Supply Chain, and Quality
- Ability to work effectively in a fast-paced, dynamic environment with time-critical requirements
- Demonstrated knowledge of, and experience implementing, EVMS, Risk & Opportunity Management, and IMS tools and processes (Microsoft Project is a plus)
- Successful demonstration of preparing, managing and presenting required Gate reviews to leadership
- Strong written and oral communication skills
- Leadership, analytical and problem-solving skills

Notes on the application procedure and data protection

What happens to your personal data?

As a personnel service provider, EADCO GmbH processes your personal data for the application process automatically, mechanically or manually in accordance with the requirements of the General Data Protection Regulation (DSGVO) and forwards the posted data to potential employers in the form of an application profile. The information on the processing of personal data (contact data as well as career and personal data) including special categories of personal data in the context of an online application can be found in the data protection declaration on our website at <https://www.eadco.com>. By sending us your application documents in response to this job advertisement or an unsolicited application, you declare your consent to the processing of your personal data for the purpose of carrying out an application procedure (in the case of a direct application) and/or for comparison with current job requirements (in the case of an unsolicited application). (in the case of a spontaneous) application. You can revoke your application at any time and without giving reasons to datenschutz@eadco.com. In the event of a revocation, your data will not be used for further applications; your profile and any existing applications will then be deleted from the system, taking into account the legal requirements (e.g. legal obligations to provide proof and to retain data).
