Project Manager Aircraft Energy Storage System (m, w, d)

Place of work	Contract Type	Job Number	545_11100535
Gauting DE	Permanent, AÜG	Work start:	asap

This role is part of the Project Management team that reports to the Head of Project Management - Energy. You will be responsible for ensuring the successful delivery of projects within the Energy Integrated Project Team (IPT), implementing project governance, developing and adhering to schedules, and managing risks and resource demand. You will work closely with a cross-functional team and leverage your experience in managing complex aerospace projects.

Your Day to Day

- As a project manager, you will manage program delivery and establish project objectives across the development cycle. You will evaluate and communicate project impacts, consult on technical decisions, and ensure project objectives are translated into achievable deliverables.
- You will facilitate delivery-related meetings, own the development, management, and delivery of the schedule, and actively manage risks and opportunities. You will plan and manage project costs and resource demands, support cross-functional alignment, and implement best practice project management processes.

Your Profile

- University degree in a technical field (e.g. Engineering) or experience in a technical environment in lieu
- Proven Project Management skills with a minimum of 3-4 years Project Management experience, ideally within a complex aerospace environment. Strong preference to candidates who have participated in at least one aircraft development program, ideally E-VTOL, and are familiar with all phases of the project lifecycle including development, certification and operational phases
- Excellent understanding of all Project Management fundamentals including scheduling, risk management, estimation, project communications and budget and resource management
- Demonstrable experience in managing/ coordinating cross-functional teams and ability to work closely with a broad range of stakeholders.
- Ability to probe and challenge assumptions
- Practical experience in a range of Project Management methodologies including predictive Project Management (eg waterfall) and Agile Methodologies (eg SAFE, SCRUM).
- Experience in JIRA highly appreciated
- Preferably hold a PM qualification equivalent to IPMA Level C or higher as well as Scrum Master or other Agile Project Management qualification. Chartered Engineer status favourable
- Enthusiastic and eager to learn and adopt his/her style to a start-up environment; puts the team first; robust and passionate in following given objectives; uses failure as a learning experience
- Excellent communicator in English and German

Notes on the application procedure and data protection

Have we aroused your interest?

We look forward to receiving your application documents consisting of a cover letter stating your earliest possible starting date, curriculum vitae, references, training certificates as well as your highest school leaving certificate and university degree.

Please send your application documents together with the completed applicant questionnaire exclusively electronically by e-mail to our recruiting team at job@eadco.com.

What happens to your personal data?

As a personnel service provider, EADCO GmbH processes your personal data for the application process automatically, mechanically or manually in accordance with the requirements of the General Data Protection Regulation (DSGVO) and forwards the posted data to potential employers in the form of an application profile. The information on the processing of personal data (contact data as well as career and personal data) including special categories of personal data in the context of an online application can be found in the data protection declaration on our website at <https://www.eadco.com>. By sending us your application documents in response to this job advertisement or an unsolicited application, you declare your consent to the processing of your personal data for the purpose of carrying out an application procedure (in the case of a direct application) and/or for comparison with current job requirements (in the case of an unsolicited application). (in the case of a spontaneous) application. You can revoke your application at any time and without giving reasons to datenschutz@eadco.com. In the event of a revocation, your data will not be used for further applications; your profile and any existing applications will then be deleted from the system, taking into account the legal requirements (e.g. legal obligations to provide proof and to retain data).
