### Note on data protection:

As a personnel service provider, EADCO GmbH processes your personal data for the application procedure automatically, automatically or manually according to the specifications of the Basic Data Protection Ordinance (DSGVO) and forwards the data to potential customers in the form of an application profile. Information on the processing of personal data (contact data as well as data on career and person) including special categories of personal data in the context of an online application can be found in the data protection declaration on our website [www.eadco.com](http://www.eadco.com). By sending your application documents to this job advertisement or an unsolicited application, you declare your consent to the processing of your personal data for the implementation of an application procedure (in the case of a direct application) and/or for comparison with current job requirements (in the case of an unsolicited application). Your profile will only be forwarded to potential customers after a written declaration of consent. The revocation of this consent is possible at any time and without justification to [datenschutz@eadco.com](mailto:datenschutz@eadco.com). Your data will not be used further for applications in the event of revocation; your profile and any existing applications will then be deleted from the system in compliance with legal requirements (e.g. legal proof and retention obligations).

### Talentpool

The right job was not in our current ads yet? Please send us an unsolicited application. We are constantly expanding our talent pool of professionals and executives in areas such as engineering, mechanics, electronics, research, product development, project management, administration and information technologies.
