EADCO
EUROPEAN AEROSPACE DESIGN CONSULTANTS

WE FOCUS ON INNOVATION

EADCO GmbH supports companies in the aerospace and defence industries by providing engineering services and connecting them with experienced professionals.

We are currently looking for qualified professionals to support a renowned client through employee leasing (Arbeitnehmerüberlassung).

EADCO GmbH will be your employer, while you will contribute your expertise directly to our client's operations.

We provide personal support throughout the recruitment process and during your assignment.

We look forward to connecting with you in a confidential and professional setting.

What we offer

- Permanent employment directly with a renowned aerospace company
- Long-term, high-tech projects with opportunities to take on responsibility
- Attractive salary and benefits

Aerospace Program Manager (all genders)
Aircraft Development, Budget & Schedule Control

Place of Work	Contract Type	Job Number
Oberpfaffenhofen, DE	Permanent Contract, AÜG	367_1910

In this position, you will take overall responsibility for the planning, coordination and successful execution of aircraft development programmes, working closely with engineering teams, suppliers, customers and executive management.

What will you be doing?

- Lead and coordinate complex aerospace programmes, ensuring delivery within agreed schedules, budgets and technical requirements
- Develop, manage and monitor integrated programme schedules, milestones and project deliverables
- Establish programme budgets, monitor costs and provide financial forecasts in coordination with senior management
- Identify and manage programme risks, resolve conflicts and set priorities across engineering and operational teams
- Coordinate cross-functional teams, international suppliers and external stakeholders
- Establish effective reporting and communication structures for management, customers and authorities
- Participate in technical design reviews and support procurement and supplier performance monitoring
- Prepare executive reports, programme status updates and presentations for senior management
- Report directly to the Managing Directors, providing strategic insights and recommendations to support programme success

What do you bring?

- Master's degree in Aerospace Engineering, Aeronautical Engineering or a comparable technical qualification
- At least 10 years of professional experience in aerospace programmes, aviation projects or related technical environments
- Proven experience in programme management, including planning, budgeting, cost control and risk management
- Strong strategic thinking, commercial judgement and a results-driven approach
- Experience leading international, multidisciplinary teams and coordinating external stakeholders
- Excellent organisational, analytical and problem-solving skills
- Hands-on mentality, confident decision-making and the ability to drive process improvements
- Excellent English and German communication skills, including interaction with executive management

Ready to bring your avionics expertise to an exciting aircraft development programme?Discover this opportunity and apply today!
